August 2016

Message from the Chair

Students already are arriving back on campus for the fall term, roads and hallways are a little more crowded, and the pace of life is picking up among our faculty, fellows and residents as we ready for another academic year.

We've got a lot of positive news in this month's issue of *The Pulse*, including an announcement about a special Pulmonary Research Conference this Monday, Aug. 22; our new DOM Research Seminar Series that starts Sept. 8; a Career Development Retreat for fellows last week and faculty promotions. Ongoing work to streamline the way in which our faculty physicians work with our primary clinical partner, Banner –

University Medicine, continues, including a new committee that will review faculty policies and practices with Banner and the College of Medicine – Tucson to make sure they align well with each other. In June, the department held a second Ambulatory Strategy Task Force meeting, led by our Vice Chair for Clinical Affairs and new Banner – UMC CMO **Dr. Gordon Carr**.

Previously, we shared photos of the event but you can see video of the presentations on how our different divisions are moving forward [here](#).

It's been a busy summer since then so, if you want to catch up, feel free to visit our [news archive](#) at the DOM website. You can see previous issues of this newsletter there or subscribe using a different email address. Be aware, we're planning a series of stories soon on what faculty, trainees and students did over the summer. Contact our communications coordinator [David Mogollon](#) if you want to share.

Chair, Department of Medicine
University of Arizona College of Medicine – Tucson

SPOTLIGHTS

\$7M NIH Grant to Help Asthma Sufferers Control Attacks, Breathe Easier

Led by **Dr. Monica Kraft** at the UA College of Medicine – Tucson, researchers will use the National Institutes of Health grant to conduct a five-year study, “Dysfunction of Innate Immunity in Asthma,” to investigate the interrelationship of genetic mediators to reduce lung inflammation and attacks in asthma patients...

Fellows Pack House at DOM Fellowship Career Development Retreat

Several dozen members of the UA Department of Medicine’s 15 ACGME-accredited fellowships packed the house for a Fellowship Career Development Retreat hosted Aug. 11 at the BIO5 Institute. They heard stories of junior faculty navigating their career paths, a research funding overview, advice from UAHS and COM senior leadership, and humorous anecdotes from **Dr. Sai Parthasarathy**...

Department of Medicine Leads Way on 'Best Hospital' National Rankings

National rankings for the *U.S. News & World Report* Best Hospital 2016-17 list recognize two of our specialties—nephrology (39th) and geriatrics (46th)—and cite three more specialties—cancer care, gastroenterology and GI surgery, and pulmonology—in the UA Department of Medicine along with four common adult procedures and conditions as “high performing”...

RESEARCH

DOM to launch 'Research Seminar Series,' Sept. 8

Starting Sept. 8, the Department of Medicine will launch a new monthly Research Seminar Series to highlight its academic accomplishments. “We expect this to be an interactive forum,” said Vice Chair for Research **Dr. Jil Tardiff**. Each seminar will pair a junior and senior investigator from different disciplines or subspecialties, spotlighting the breadth of innovative research under way in the department seeking new treatments, therapies and cures for some of the world’s most debilitating illnesses and diseases...
