March 2017

### Message From The Chair

Ah, spring. A breath of fresh air as the cacti begin to bloom, rattlesnakes lay in the sun for a little warmth and March Madness makes us all hoops crazy. OK, turn off ESPN in the doctor’s lounge. Back to work.

Lots happening in our world. The Arizona Board of Regents just announced **Dr. Robert Clayton Robbins**, president and CEO at Houston’s Texas Medical Center, as their top choice for new University of Arizona president. Read/hear more at [UANews](#), [The Daily Wildcat](#), [Arizona Public Media](#) or [ABOR News Releases](#).

Our clinical partner, Banner – University Medical Center announced a delay in the new Cerner EHR rollout, which was to be June 1. Don’t let that stop you from registering for training and keep practicing. This moves the Cerner transition away from a time when new faculty, fellows and residents traditionally start, easing potential confusion. Look for a new go-live date to be set soon—see news item below for more.

A few quick points:

- Since we’re talking about electronic health records, make sure you’re up to date on the latest “Meaningful Use” attestations for physicians and APPs (advanced practice providers) regarding EHR Incentive Programs. From CMS, you can find “2017 Program Requirements” [here](#) and [here](#). Banner provides additional guidance via eClinicalWorks [here](#) and [here](#). Also see these [Hospital EMR & EHR newsletter webposts](#) on Banner’s approach.
- Speaking of compliance, check your email for the message “Driver Registration and Defensive Driving online training” to comply with Risk Management Services rules for any vehicle used on work hours for university business. This is important for physicians/staff who may travel between campuses or clinic sites during the day. Learn more [here](#).
- A new Banner email server also means some physicians (on Android mobile devices) may need to download encryption software to keep your messages secure.

Construction on the new Tucson campus hospital tower, North campus outpatient center and new UA Health Sciences campus research buildings continues at a dizzying pace.

What's What? North Campus

Some older buildings (the Arizona Center on Aging, Comstock, and Herbert K. Abrams Buildings, as well as modular structures by the Old Polo Village) will be demolished over the next several months. New space will open up with completion of the North campus project and clinic moves there by May 2018. Please bear with us as we start relocations late this year and early next to space opening up for DOM business and administrative staff on 6OPC and 7OPC. You can follow progress on new buildings at the [UAHS Campus Construction Update website](#) or, for the North campus project, [this webcam](#).

Lastly, Match Day for graduating medical students (aka, incoming residents come July) is Friday. Our department enjoyed a wonderful Fellowship Match earlier this year. You can read below about incoming fellows, which outgoing residents placed elsewhere and who are chief residents next academic year.

Good luck to all those hoping to match into our Internal Medicine and Dermatology residency programs!

**Monica Kraft, MD**

Chair, Department of Medicine; and The Robert & Irene Flinn Professor of Medicine, University of Arizona College of Medicine – Tucson

**SPOTLIGHTS**

[Dozen UAHS Investigators Secure ABRC Grant Awards Worth Nearly \\$6M](#)  
Twelve UA Health Sciences investigators—including **Drs. Monica Kraft**, chair, Department of Medicine; cardiologist **Steven Goldman** and physiologist **Heddwen Brooks**—won grants totaling \$5.85 million over three years from the Arizona Biomedical Research Commission, it was announced this week. The list also includes UA Arthritis Center, UA Cancer Center, UA Center on Aging and UA Sarver Heart Center members...

### Dr. Amy Sussman to Lead Education Programs as Newest DOM Vice Chair

UA nephrologist **Dr. Amy Sussman** has been named the new vice chair for education in the Department of Medicine adding to her roles as Nephrology Fellowship Program director and department clerkship director. A repeat winner for four years running in the UA College of Medicine teaching awards, she replaces Dr. Ken Knox, who left in December to be associate dean for faculty affairs and development at the UA College of Medicine – Phoenix...

### Match Mix Promising for Incoming Fellows in Advanced Internal Med Training

Thirty-two incoming fellows—half of them graduating UA internal medicine residents—have matched into advanced training programs for the 15 ACGME-accredited fellowship programs in the UA Department of Medicine that start in July. Another 13 UA internal medicine residents are headed to fellowships elsewhere. Next year’s chief residents at Banner – UMC Tucson and South are named here, too. Read all about it...

## UPCOMING EVENTS

MAR 16	"Wearable Tech to Track Your Health" with Dr. Marvin Slepian	MAR 17	<b>MATCH DAY 2017</b>	MAR 18	Hockey "Cancer Awareness Night" @ Tucson Roadrunners v. Bakersfield Condors

APR 5	Living Healthy With Arthritis: "Listen to Your Heart" with Dr. Charles Katzenberg	APR 6	Bear Down, Beat Cancer Lectures: "Diet & Cancer" with Dr. Cyndi Thomson	APR 12	Sarver Heart Center 30th Anniversary Lectures – "Sleeping for Peak Performance" with Dr. Michael Grandner

## RESEARCH

### DOM Blog Aims at Illuminating Research Resources

There's no better time than now to be a researcher at the Department of Medicine, says UAHS Research Administration Associate Director **Rachele Peterson** in the latest DOM Blog. The blog post focuses on medical research resources available through her unit. DOM, she points out, was awarded more than \$100 million in grants across nearly 100 proposals during FY16—the definition of success. Learn a bit about the teams that helped our investigators achieve that success...

### Banner Adds Urgent Care Clinics in Tucson, Phoenix

After its acquisition of 32 existing Urgent Care Extra centers in August 2016, Banner Health announced seven new urgent care sites this month. This growth in highly convenient, extended-hours care assures patients across Phoenix and Tucson will have excellent access to care, even when their physician's office is closed. It includes two additional Tucson sites—6021 N. Oracle Road and 7089 N. Thornydale Road—added to the four acquired last year...
