July-August 2017

## Message From The Chair

Welcome back everyone for another academic year! As we head into fall, I note that we have a number of exciting transitions at play that will require we keep mindful of our critical roles as educators, researchers and clinicians to work through them.

This includes the Banner – UMC Tucson and South move from the Epic electronic health record system to Cerner. Go-live occurs Oct. 1, with a "soft" go-live in mid-September. A lot of work by a lot of people is going on behind the scenes to ensure the transition is as smooth as possible.

Please make sure you have met all training and other requirements. Expect at-the-elbow support throughout the process, but that will drop off toward year end. Pre-conversion coaching starts Sept. 11, conversion coaching runs Oct. 2-25 and optimization coaching is Nov. 7-Dec. 21. For more detail, see [this presentation \[PDF in workplace\]](#). Thanks go out to **Dr. Tammy Clark Ojo** and her team.

Banner also expects to roll out a new "Find A Doc" function to its website, so providers should review their profiles and let division or unit admins know if information needs to be updated. All revised profiles should be uploaded by Sept. 18. This will do much to increase provider visibility for patients seeking treatment by all our wonderful physicians—faculty and trainees (fellows and residents) included.

Furthermore, planning is underway as we get closer to completion of new Banner – UMC hospital and clinical facilities at main and north campuses. Toward the end of the year, we'll begin to see movement of people and equipment. As all of these things can add to stress loads, a positive attitude throughout will help everyone. Let's remember to be patient and professional with each other.

That said, as you'll read in this newsletter, we have much to be positive about. This was underscored Aug. 30 in College of Medicine – Tucson **Dean Charles Cairns'** "State of the College" address. Highlights include record medical student and GME applications, curriculum renewal, the best *U.S. News* clinical rankings in a decade and another record year for research. Many positive advances have been made in the UA-Banner partnership also, including more than 200 new faculty posts approved, greater engagement and removal of a non-compete clause in provider contracts. "That was Banner's recognition that they want people to want to stay here because of the environment and the service and the opportunity—and not because they had to," Dr. Cairns said.

As with everything in life, it's often easier to meet challenges as a team, rather than individually. I'm glad that I can look across the faculty and staff in our 14 divisions and see that the sum of our parts makes us more effective as a team. Thank you all for your contributions to that end. Let's have a great year.

### Monica Kraft, MD

Robert & Irene Flinn Professor of Medicine  
Chair, Department of Medicine  
University of Arizona College of Medicine – Tucson

## UPCOMING EVENTS

SEP 5	Infectious Diseases Grand Rounds: Dr. Anita Koshy - "CNS Parasites: Diagnosis and Treatment"	SEP 6	Petersen HIV Clinic Meet-Your-Pharmacist - "Save a Life: Carry Naloxone"	SEP 6	Living Healthy with Arthritis: Drs. Ann Skulas-Ray and Donato Romagnolo - "Nutrition and Inflammation"
SEP 9	"Beyond Cancer: Finding Spirit" - Miguel Flores Jr., CEO, Holistic Wellness Counseling	SEP 11	Advances in Aging: Dr. Cynthia Thompson – "Diet and Healthy Aging: Lessons from the Women's Health Initiative"	SEP 14	DOM Research Seminar Series: Drs. Craig Stump and Charles Downs

## SPOTLIGHTS

### NIH \$4.8M Grant to Valley Fever Center to Speed Vaccine Development

The UA Valley Fever Center for Excellence, led by **Dr. John Galgiani**, will use the money to accelerate development of a Valley fever vaccine for dogs that it's hoped will lead to a successful human vaccine. A California-based biotech company, Anivive Lifesciences, which has licensed the candidate vaccine from the UA, and Colorado State University have joined the center in that effort. UA co-investigators include **Drs. Marc Orbach, Jeff Frelinger and Lisa Shubitz...**

### Banner – UMC Tucson's *U.S. News* 'Best Hospital' Rankings Best in Decade

In addition to being No. 1 in Southeastern Arizona and No. 2 in the state, the hospital is nationally ranked in cancer, geriatrics, gynecology and pulmonary care—the first time in **nearly a decade** that many of our specialties have been recognized nationally. We also earned high-performing ratings in four more specialties, three in our department (diabetes and endocrinology, gastroenterology and GI surgery, and nephrology) and five adult procedures (heart bypass surgery, heart failure, colon cancer surgery, chronic obstructive pulmonary disease, and lung cancer surgery)...

### Dozen New Physicians Join Faculty in UA Department of Medicine

The UA Department of Medicine welcomed a dozen new physicians in its various divisions over the past several weeks, among them Drs. Sophia Airhart, Nathan Copeland and Sarah Patel. They are among three new faculty members in Inpatient Medicine, two in Cardiology and Hematology and Oncology, and one each in Endocrinology; Nephrology; Pulmonary, Allergy, Critical Care and Sleep Medicine; and Rheumatology. Several more are scheduled to start through mid-October...

## RESEARCH

### [Kidney News Shines on 'All of Us' Research Program](#)

UA nephrologist **Dr. Akinlolu Ojo**, a principal investigator on the Arizona All of Us<sup>SM</sup>/Precision Medicine Initiative Research Program, was quoted extensively in an article on the program that appears in the August issue of the *ASN Kidney News*, a publication of the American Society of Nephrology. Read the full article here...
