2nd Annual CareMore Cardiovascular Update Symposium 2018:

Delivering Evidence-Based Care in Real World Practice

You are invited to a unique educational experience that blends academic cardiovascular medicine with real world practice. Presenters will include nationally and internationally known experts who will share their perspective on delivering high-quality evidence-based practice in the most resource responsible ways. This Symposium is an opportunity for physicians and healthcare providers to enjoy a state-of-the-art educational update on cardiovascular disease, tailored to Cardiologists, Primary Care Physicians, Residents, and Medical Students.

Objectives

- Incorporate current therapies for chronic and acute coronary artery disease
- Diagnose and manage acute decompensated heart failure, chronic heart failure and advanced heart failure
- Utilize principles of palliative care in the management of heart diseases
- Utilize appropriate cardiac rhythm devices for arrhythmia management
- Incorporate current guidelines on cholesterol and blood pressure management

Presented in Coordination with CareMore Health

This program is endorsed by the **Arizona and California chapters** of the **American College of Cardiology**.
