

THE UNIVERSITY OF ARIZONA
COLLEGE OF MEDICINE TUCSON

Department
of Medicine

RESEARCH

SEMINAR SERIES

SPECIAL GUEST SPEAKER: Judith Voynow, MD

The Edwin L. Kendig, Jr., Professor of Pediatric Pulmonology at the Children's Hospital of Richmond, Va., and Professor of Biochemistry and Molecular Biology at Virginia Commonwealth University

“Neutrophil Elastase and Cystic Fibrosis Lung Disease”

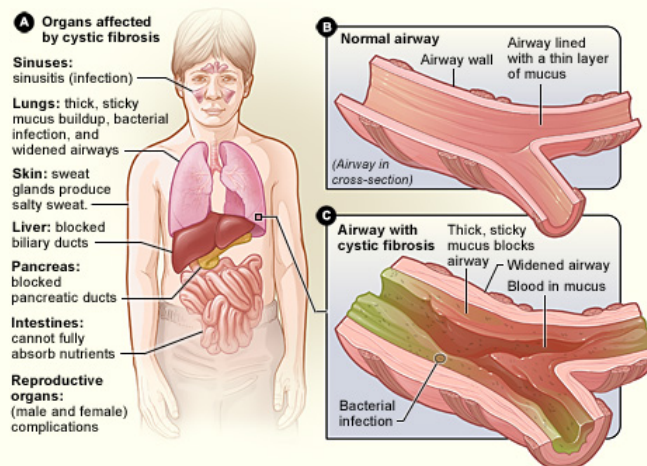

Dr. Voynow's research focuses on: 1) understanding cystic fibrosis (CF) pathogenesis and how neutrophil elastase in the CF airway causes lung disease in order to develop new therapies to combat this process, 2) the interaction between host factors and pulmonary susceptibility to ozone, and 3) determining biomarkers for chronic lung disease of infancy, otherwise known as bronchopulmonary dysplasia.

A light lunch will be served.

Thursday, Nov. 9, 2017, Noon – 1 p.m., UAHS Room 5403

This seminar series is sponsored by the UA Department of Medicine. All lectures are livestreamed and archived at: <http://streaming.biocom.arizona.edu/home/>

(Click on event date to view.)

Co-sponsored by the UA Health Sciences NIH Interdisciplinary Training in Cardiovascular Research T32 Program
