

## **Medicine Grand Rounds**

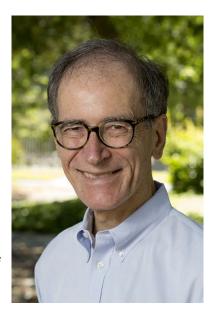

## "Do we need a randomized trial."

Speaker: Mark A. Hlatky, MD

UArizona College of Medicine – Tucson Lecture Hall, Room 5403 1501 N. Campbell Ave., Tucson, AZ 85721 Noon – 1:00 pm | Wednesday, Oct 9, 2024

— A light lunch will be provided. —

**About the Presenter:** Dr. Hlatky is a cardiologist with major research interests in clinical trials, clinical research methods, outcomes research, and comparative effectiveness research. He has conducted large outcomes research studies of coronary revascularization, sudden cardiac death, implantable cardioverter defibrillators, heart failure, and coronary artery disease. He has also developed decision models to assess the effectiveness and cost-effectiveness of a wide variety of clinical strategies, including prevention of sudden cardiac death, use of testing to guide preventive treatment of heart disease, use of genetic testing in cardiovascular medicine, and management of cardiac risk during non-cardiac surgery. His current research focuses on the effects of adverse events during pregnancy on long-term cardiovascular health in women.

Dr. Hlatky has received the Life-time Achievement Award of the Council on Quality of Care and Outcomes Research of the American Heart Assoc

on Quality of Care and Outcomes Research of the American Heart Association, and the Distinguished Scientist Awards of both the American Heart Association and the American College of Cardiology.
