About the Presenter: Dr. Gelmann is a professor of medicine in the Division of Hematology & Oncology at the Department of Medicine in the University of Arizona College of Medicine – Tucson and the John Norton Professor of Prostate Cancer Research at the U of A and U of A Cancer Center. He primarily cares for patients with genitourinary malignancies including prostate, testicular, bladder and renal cell cancers. He continues his research on the molecular biology of prostate cancer. His laboratory has made major contributions to the understanding of the genetic steps that transform a normal prostate cell to a cancer cell. Dr. Gelmann remains actively involved in pre- and post-doctoral education, teaching graduate students, house staff, and fellows. He is also the leader of the GU Disease Oriented Team at the Cancer Center.
