Medicine Grand Rounds

"Artificial Intelligence: Utility, Benefits and Risks: An Innovation, Medicine and Society Perspective"

Speaker: **Marvin J. Slepian, MD, JD**

UArizona College of Medicine – Tucson
Lecture Hall, Room 5403
1501 N. Campbell Ave., Tucson, AZ 85721
Noon – 1:00 pm | Wednesday, Oct 30, 2024
— A light lunch will be provided. —

About the Presenter: Dr. Marvin Slepian is a Regents' Professor at the University of Arizona with professorships in medicine, medical imaging, surgery, chemistry, biomedical engineering (where he's an associate department head), materials sciences and engineering, chemical and environmental engineering, as well as being a McGuire Scholar in the Eller College of Management. Dr. Slepian is the founder and director of ACABI - the Arizona Center for Accelerated Biomedical Innovation – which works across the university as a "creativity engine" to drive innovation, novel solution development and real-world translation. In parallel with his clinical career, he has had an extensive research career leading to development of innovative diagnostics and therapeutics for cardiovascular diseases. His work has focused on the development and use of novel biomaterials for tissue engineering, drug delivery and medical device development.
