DOM Special Lecture

“Transcriptional Regulation of the Pathogenesis of Cardiometabolic Diseases”

Speaker: **Yanqiao Zhang, MD, MS**

UArizona College of Medicine – Tucson
DOM Conference Room 6416*
1501 N. Campbell Ave., Tucson, AZ 85721
1-2 p.m. | Monday, Dec. 4, 2023

— A light lunch provided —

About the Presenter: Dr. Yanqiao Zhang is a professor and the director of diabetes, obesity and metabolism research at Northeast Ohio Medical University (NEOMED) and also serves on faculty at the Kent State University School of Biomedical Sciences as an associate professor. He received his master’s and medical degrees from China’s Wuhan University. He moved to the U.S. in 1998 and did postdoctoral training at West Virginia University and the University of California, Los Angeles. In 2008, he was recruited by NEOMED as a tenure-track assistant professor and has been with it for 15 years.

Dr. Zhang’s research is focused on regulation of lipid, lipoprotein and energy metabolism as well as the pathogenesis of fatty liver disease and atherosclerosis. His work is supported by the National Institutes of Health and he has served on many NIH study sections as a standing or ad-hoc member. His group has published papers in *Nature Metabolism*, *Nature Communications*, *Hepatology*, *Molecular Therapy*, and *Diabetes*, and he serves on the editorial board of *Hepatology* as a member and several other journals as associate editor. He has trained many students and postdoctoral fellows, some of whom are now faculty members in academic institutions.

Dr. Zhang’s address will be followed by a 30-minute chalk talk.

** Located on 6th floor west of old hospital’s main elevator bank in what was the old Adult Medicine Clinic space.*
