

Friday Frontiers in Biomedical Science

Designed to engage researchers and clinicians at all stages of career development, the upcoming seminar is hosted by Women in Medicine and Science (WIMS) and Hina Arif-Tiwari, MD, FSAR, professor of medical imaging, vice chair of clinical affairs and assistant dean of the WIMS Program. Join us as we welcome special guest Meghan G. Lubner, MD, professor of radiology in the abdominal imaging section and chief of clinical and research CT at the University of Wisconsin School of Medicine and Public Health.

Dr. Lubner will share a 45-minute overview of her work, with an opportunity for audience engagement, followed by a networking hour. Light refreshments will be provided for in-person guests.

Friday, March 29, 3-5 p.m.

Keating Bioresearch Building

BIO5 Room 103, remote option

Refreshments provided.
