

THE UNIVERSITY OF ARIZONA
COLLEGE OF MEDICINE TUCSON

Infectious Diseases

ID Grand Rounds

Anita Koshy, MD

**“CNS parasites: who, when, where,
how to diagnose and treat”**
(special emphasis on *Toxoplasma gondii*)

Tuesday, Nov. 5, 2019
8:00 – 9:00 a.m.
COM-T Room 5120

Anita Koshy, MD is an Associate Professor in the Department of Neurology and in the Department of Immunobiology at the University of Arizona. Her clinical and research interests led her to specialize in the area of Neuro-Infectious Diseases. She came to the University of Arizona in 2012 after a postdoctoral fellowship in molecular parasitology. The Koshy lab seeks to define the mechanisms that allow *Toxoplasma gondii*, a common intracellular parasite, to persist in the central nervous system (CNS).

Awards/Honors:

Chief Fellow, Division of Infectious Diseases, Stanford University (2008-2010)

Walter & Idun Postdoctoral Fellowship, Stanford University
