

# 2019 Statewide Symposium in Regenerative Medicine

**Friday and Saturday, May 17-18, 2019**  
Sky Song, Synergy I & II, Building 3  
1475 N. Scottsdale Rd, Scottsdale, AZ

In partnership with the Arizona Board of Regents, lead scientists, clinicians and other industry leaders throughout Arizona will come together for a two-day symposium to discuss these emerging areas of research.

- Developmental biology
- Bioimaging technologies
- Stem cell-based disease modeling
- Genome editing technologies
- Biomaterials and tissue engineering
- Translational stem cell research
- Regenerative medicine ethics, policy and regulation

## **Grey Zones of Governance, from Human-Animal Chimera to Embryo Research**

Keynote address by Ben Hurlbut  
Associate Professor, School of Life Sciences  
Arizona State University

We are accepting abstracts for poster presentations, where graduate students are eligible to receive student poster awards. **Abstracts are due by April 26.**
