PRESENTS

THE FLINN FOUNDATION

BUFFMIRE LECTURE

Disease Causality and Intestinal Microbiota: Is Fecal Microbiota Transplantation the Answer?

Dr. Lawrence J. Brandt, professor of Surgery and Medicine in Gastroenterology and Liver Diseases at Montefiore Medical Center in New York, where he currently is the Emeritus Chief of Gastroenterology and Professor of Medicine and Surgery at Albert Einstein College of Medicine, will discuss the intestinal microbiome and give examples of how the microbiome can be changed to alter the outcome of patients suffering from a variety of illnesses, as well as what the future of fecal transplantation and manipulation is going to be.

Noon | Friday, March 23

DuVal Auditorium, Banner –
University Medical Center Tucson

Lunch is provided for all guests.
Lunch service begins at 11:40 AM.
